Charity golf day breaks all records

Senses Foundation's major annual fundraiser – the AHG Charity Golf Day – has again been hailed a resounding success.

Held at Lake Karrinyup Country Club on Friday 6 May, this year's event has raised a record-breaking \$120,000.

These much-needed funds will help provide education, training and resources in specialist communication in regional and remote WA for people who are deafblind or have a vision impairment and additional disabilities, as well as their families, carers and service providers.

Senses' Chief Executive Officer Debbie Karasinski says the 2011 golf day attracted more than 30 teams who enjoyed lunch sponsored by Downer, before taking to the greens for the afternoon's Ambrose competition.

Golf attire was then traded for evening wear, and guests were treated to a sumptuous gourmet dinner sponsored by LWP Property Group, complete with fine wines from Wise Winery and beers from Carlton United Brewery.

The live and silent auctions attracted plenty of interest and some healthy competitive bidding. Popular items included jewellery from Brinkhaus Jewellers, a VIP trip to Leeuwin estate, tickets to the Hyundai Hopman Cup, an 'adrenaline' adventure, a Phuket holiday and Burswood accommodation package.

This is the 14th year Automotive Holdings Group Limited (AHG) has sponsored the charity golf day, which is Senses Foundation's major fundraiser.

Other event sponsors this year were:

- Schweppes Australia
- Kee Hire
- Frontier Software
- AON Risk Management

"We also received a range of wonderful donations from our supporters, we are overwhelmed by their generosity," Ms Karasinski says.

"Without sponsorship and donations from our generous corporate partners we simply would not be able to provide our services to as many people."
